REPORT ON VEGETABLE GARDEN HARVESTING

Date : 7 April 2021

Time : 2.00 pm

Venue:- Al Shifa College Garden

REPORT: -

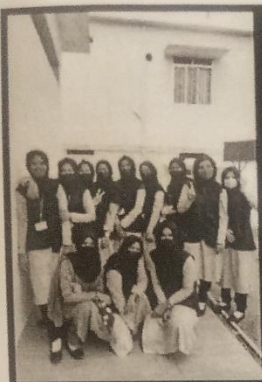

Our college organised an activity of vegetable garden harvesting on 7 April 2021. The main aim of this is to harvest new vegetable species. Selected students from bpharm were working behind this and was a part of this activity. This program was initiated by the NSS unit of Al Shifa College of Pharmacy. This harvest was first done in the year 2020 and this is the third harvest till date.

The students were harvesting plants like spinach, brinjal and ladyfinger too in the garden. We had a very good experience all together. And we were also given a brief description on how to harvest plants and all. We concluded the day with taking some good pictures. Hope that we harvest more plants next time.
