### INITIATION TAKEN BY THE PROGRAMME OFFICER AND THE PRINCIPAL IN STRENGTHENING THE NSS PROGRAMME

NSS unit of Al Shifa College of Pharmacy, strive continuously in enabling the students towards a community oriented welfare measures apart from their routine academic activities. The Principal and programme officer identified some social service activities that is highly in need towards the up liftment of the marginalized sections of the community for a better being. They are outside the margin due to various reasons and a motivatable force towards their betterment will definitely improve their life activities. It is here the role of the principal and programme officer of NSS plays a major role in catalyzing the students by diverting their leisure hours towards working for the society, which helps in a well-defined nation building process. Also the slack time of the students are diverting towards a good deed and this will prevent them from slipping towards some unwanted activities that may be useless or harmful to the society. The students are guided for identifying the various social services that are beneficial to the people and also helping them in implementing the strategies identified by them. The devastating flood that affects Kerala, that also to our district of Malappuram during the month of August, witnessed our students as volunteers in various affected areas. Under the guidance of the programme officer and Principle they involved in various voluntary works which include house hold cleanings, educating the people against contagious diseases and also distributing necessary kits for the affected. Even though financial support is needed, mental inspiration is highly recommended for them as they have to come to normal life from an absolute voidity. Here our volunteers played a major role by providing counselling for them. Aiming this in mind the institution had done various activities, which can be noted from the achievements of the NSS unit.

### OVERAL PERFORMANCE REPORT OF THE NSS UNIT

The unit had done various activities inside the campus as well as out side like distributing the school kits to the wards of cancer and dialysis patients. In order to make the campus more green a wide variety of saplings were planted in different areas of the campus. In commemoration with making jack fruit as the state fruit, the unit also initiated steps in planting the saplings of the same. In order to improve the health status of our community the unit conducted kidney disease detection camp, awareness programme for mental health among youngsters, cancer awareness programme etc. As yoga is getting more and more attention now a days, the unit also celebrated yoga day with yoga class and yoga awareness. Pattikkad railway station in the Shornur Railway line is widely used by the people of this area for their various commuting needs, the station has a building but some lacuna regarding the cleanliness and aesthicity of the station premissis, with the inspiration of the Principal and Programme officer our student volunteers engaged in cleaning the station premissis and also painted the station building, which got great appreciation from within and also from the society. Plastic is having great threat to the environment and the use of it should be reduced, as we are in the profession of health care we are well aware about their ill effects and hence conducted an awareness programme to the public in limiting the use of the plastics. Last year Kerala witnessed the flood of the century and many people lost their lives and property, here our volunteers deeepley engaged in relief activities not only within the district, but also in far away places like Kodungalloor. Their we distributed essential kits and also involved in the cleaning and rehabilitation programmes of the affected. Mental counselling was given to the affected ones. Eventhough the curriculum of Pharmacy is tough and hard, the students as well as the faculty are well aware about the society based education. Education without contributing to the society is worth less and here our education is a combination of both.

In these activities eventhough all the faculty taken part in their role the leading hands with the programme Officer and Principal.
